Mycity documentation

Online version: https://docs.google.com/document/d/1or 3zSyj9-LFTuFNhnu8hW32nV2XzfmFtB_YuBHsF8cI/edit?usp=sharing

For any questions add me on skype: noxon.su

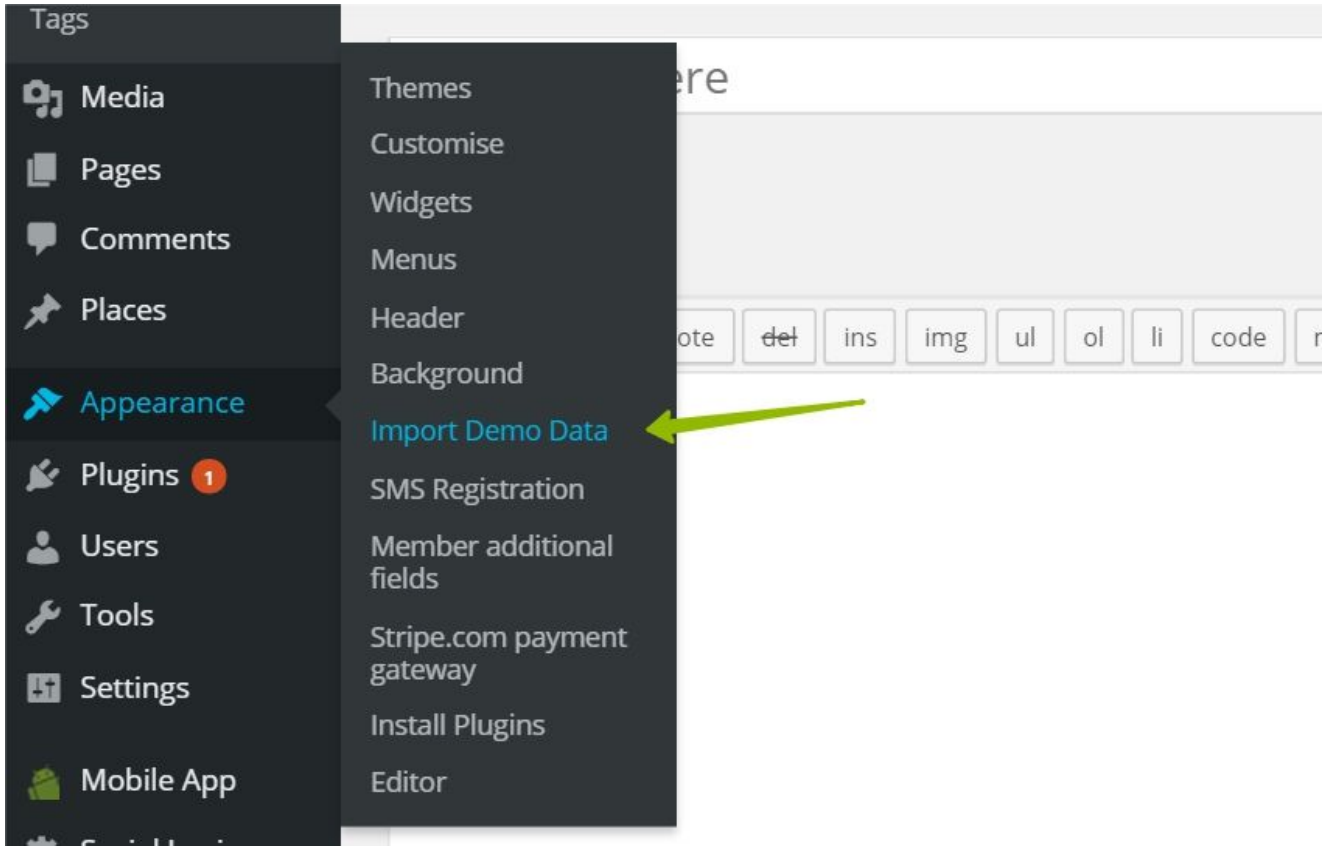
- 1 Instalation & Basic settings
- 2 Sms registration
- 3 Adding a category of Places
- 4 Basic menu
- 5 Change display a list of locations
- 6 Login via social networks
- 7 Mobile applications. [beta]
- 8 Change comments style
- 9 File structure
- 10 Change the font
- 11 Add google Inside and Street view
- 12 Tickera plugin to sell tickets

1. Instalation & Basic settings

0) Install wordpress . Video: https://vimeo.com/17147778
1) Download the theme from themeforest.net
2) Go to Wordpress Admin Panel -> Appearance -> Themes. Click “Add new”, then upload archive “MyCity.zip”
3) Click "Activate theme" then click “Begin activating plugins”

4) Activate all required plugins

5) Import demo data. Go to "Appearance"->Import demo data and click "Import".



Note: *Sometimes after this step some plugins may be deactivated, just enable they again.*

6) Go settings->permalinks and click “Save”

To work correctly, you must activate all required plugins (Follow instructions after activate theme) and add spetial pages (**or just import demo data**):

Slug	Page Template
http://yoursite.com/submit-place	template-add.php (Submit place)
http://yoursite.com/register	template-auth.php
http://yoursite.com/places	Places_map.php, Places_grid.php or Places_list.php
http://yoursite.com/members	template-members-list.php

Change background & logo

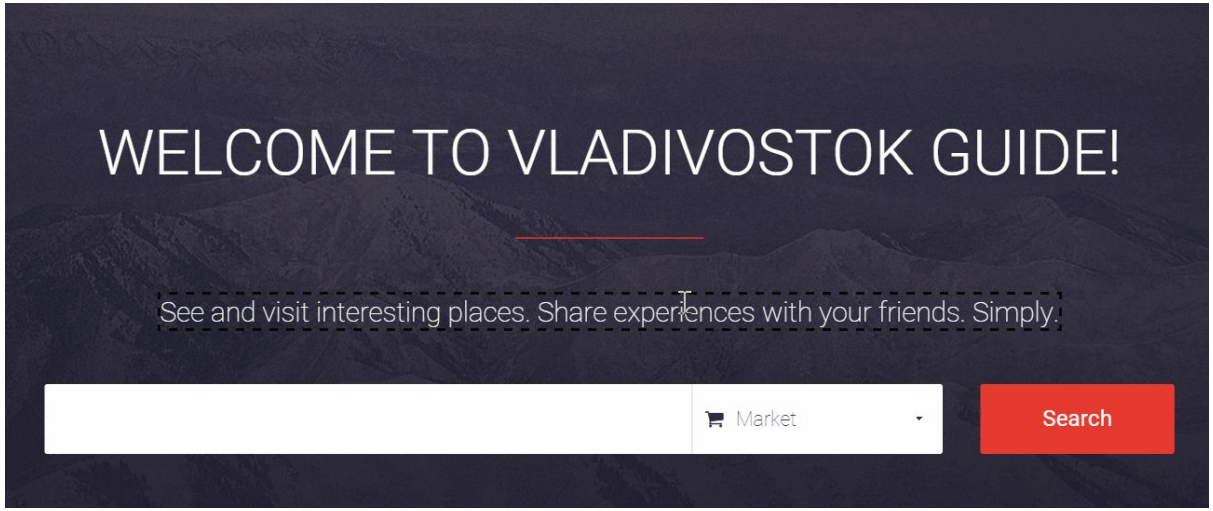
"Appearance -> Customize -> Header image"

For Change logo: "Appearance -> Customize -> Logo"

If you do not see these items: try to enter into customizer from another page (eg blog category)

One click text edit

Some blocks of text can be edited by click. Login under Admin and click on text what you want to change.



Change map style

1) Choose the right type of card to https://snazzymaps.com. Next, copy the json code
2) Go to the Dashboard -> Customize your site -> Map style and paste the code in the box stylemap_json (screen looks like)
3) Save changes

2 Sms registration

Go to Appearance -> SMS registration -> and click “Allow SMS registration ”. You should also register control.txtlocal.co.uk and save “Your control.txtlocal.co.uk/ API email:”

You can see sended sms on https://control.txtlocal.co.uk/reports/history/api/

3 Adding a category of places

1) Go to Places -> Places Category
2) Enter the name of the category (eg "Bars")
3) Click on the link Show / hide icons and click on the icon that will appear on the map all the places in this category (the token).
4) Choose a color marker
5) Click "Add new category"

4 Basic menu

See https://ru.support.wordpress.com/menus/
More http://codex.wordpress.org/WordPress_Widgets

5 Change display the list of locations

The theme supports three kinds of display areas. The map, grid and a simple list.
Go to Pages -> Places and select Template.

6. Login via social networks

We use the plugin "OneAll Social Login 4.6" Detailed documentation on setting http://docs.oneall.com/plugins/guide/social-login-wordpress/#2
Go to Pages -> Places in the lower right corner to select Template respectively.

7. Mobile applications. [beta]

With Apache Cordova you can generate the application and send it to the AppStore or Google Play. Our solution based on Apache Cordova technology. App simply open the mobile version of your site in iframe without browser. This is simple but effective way. Apache Cordova have wonderful documentation how to do it (on Spanish, Slovenian, English, Russian, Chinese, French, German, Inalinan and other language):
[Android platform guide]

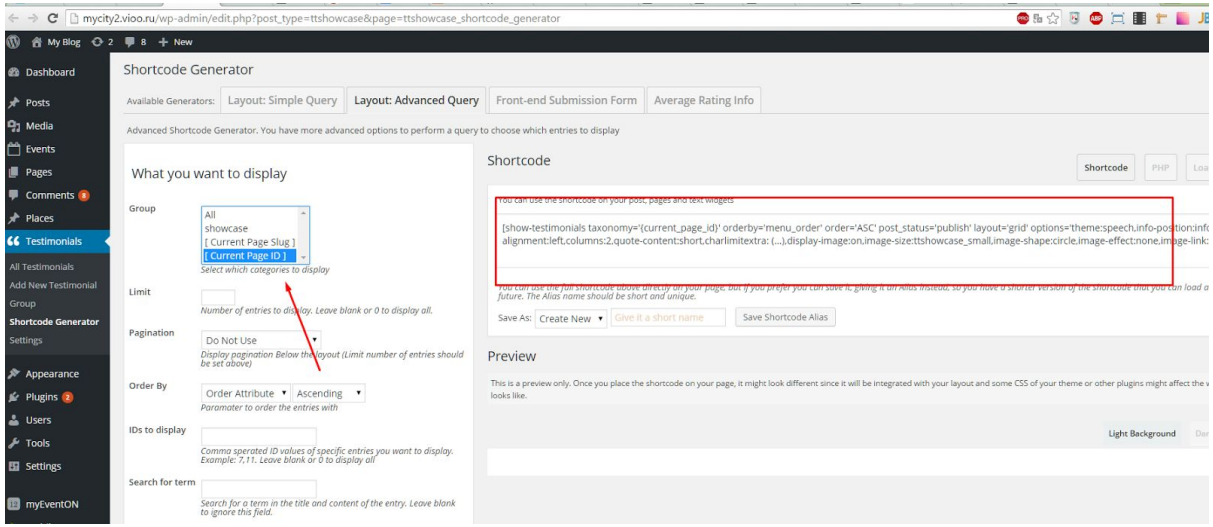
[iOS platform guide]

Android app builder integrated directly in admin panel. Just fill form and click Generate. Note: the porocess run on our cloud platform, not on your server.

Step 1: Generate App Icons via http://arenddeboer.com/cordova/
Step 2: Go to Admin Panel > Mobile app
Step 3: Upload zip archive with icons and fill config file

8. Change comments style

Step 1: Go to Testimonials > Shortcode Generator
Step 2: Generate shortcode in tab "Layout: Advanced Query" or tab "Front-end Submission Form", copy this shortcode



Step 3: Go to Appearance > Customize and insert these shortcodes

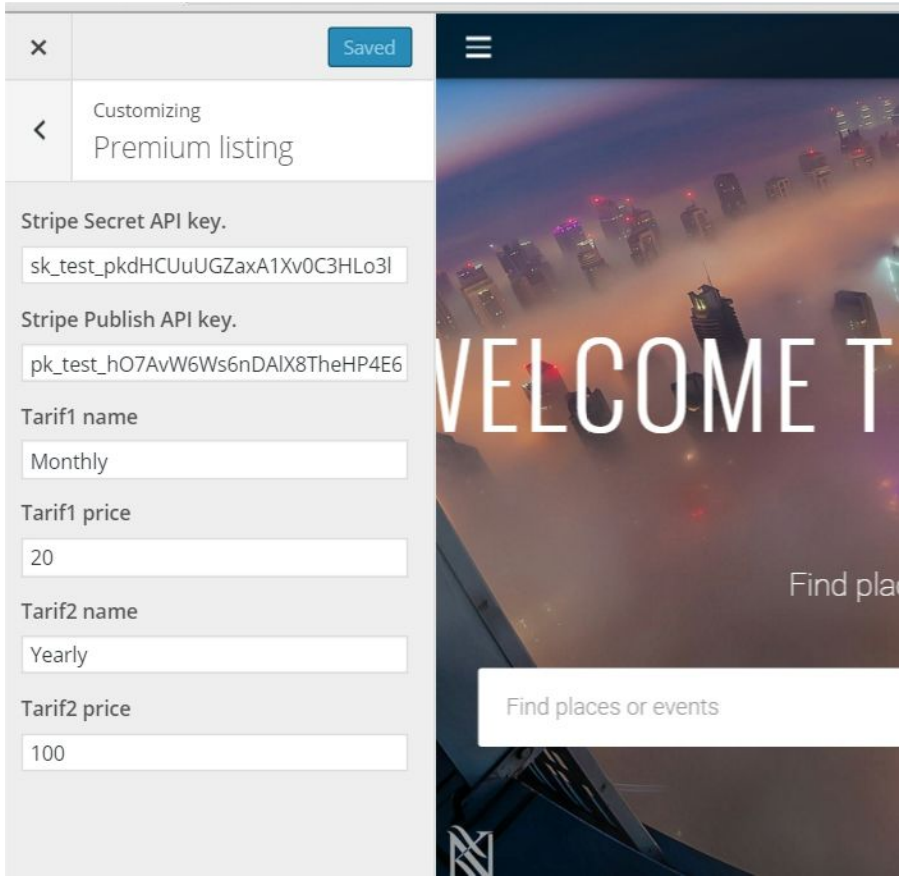
QA:
If i want change directory structure of WP theme will be work correctly?
Yes but you must reupload images e.g Logo or backgrounds via admin panel.

How to connect Stripe.com ?
1 Go https://dashboard.stripe.com/account/apikeys

2 Copy Secret and Public key to Your site -> Customize -> Premium listing



Q: How to activate visual composer?

A: Activation need for autamatic updates. All new versions of VC wil be added to MyCity theme.

Q:I would like for it to automatically publish the Place without moderation.
A: Go customizer->Items->Status place when adding set to “Publish”

Q: Why do i no see the revolution slider ?
A: Create slider“mainslider” or import from archive (mainslider.zip in mycity.zip)
https://theme-fusion.com/knowledgebase/how-to-exportimport-your-slider-data/

Q: Why do i no see markers on map?
A: check images and font awesome icon specified to place category. Wp-admin->Places->Places category

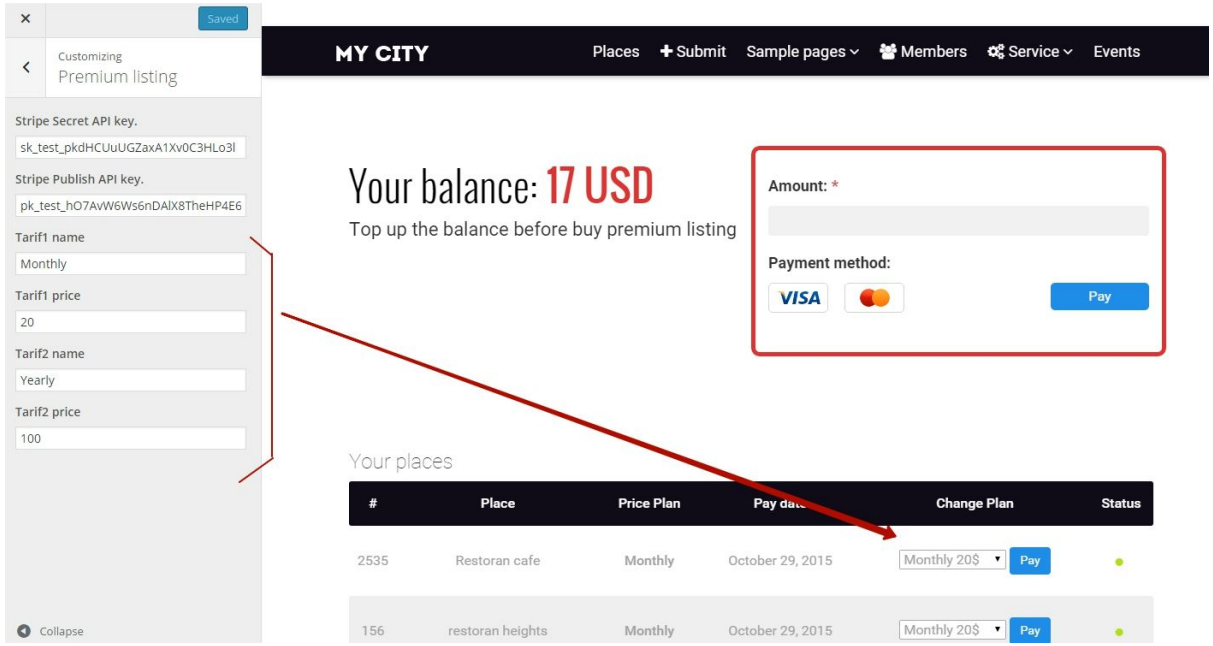
Q: how does the premium submissions work?
A: Add page with template “template-finance.php”. Change plans price and name in customizer, and connect site to stripe.com

Q: How to make the submit page automatically publish the "place" and redirect to the profile page for the place
A: Customizing > Items > Status place when adding

Q: How to I change to just E-mail registration for now?
A:

Q: How to sell tickets?
A: Activate plugin Tickera and configure payment inside this plugin (not finance)

Q: How to sell premium listings?
A: Add new page with template “tempalte-finance”. Then use **Cusomizer > Premium listings** for change prices and configure stripe.



Now your members can pay for places what they added. (Add link to this page somewhere)

Q: How to enable paypal and paypal recurring payment?

A: Enable plugin fmrFinance . More information
https://docs.google.com/document/d/1YlnOm6Tu4VAru2hcb1E3wvIvUpc6Y6bmC0UYlkiLNws/edit

Q: How to enable dialogs between users?
A: Just activate fmrDialogs plugin . More information
https://docs.google.com/document/d/1zeWdU3bR3prXt1AHOZj0fQQW-xY7rjHfAFPA6dJVV4s/edit?usp=sharing

Q: Events in footer have broken link
A: Make sure that the event attracted to the place

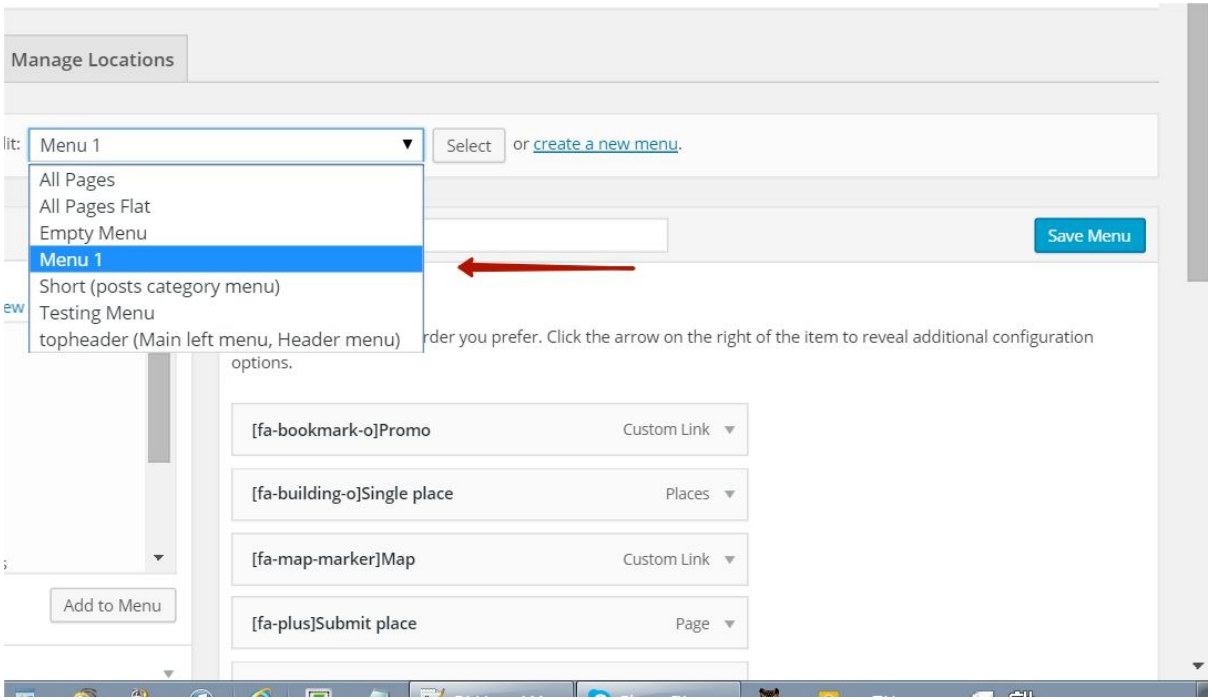
q: how can I remove or hide sections from the home page
a: Unfortunately sections on front-page have complex functionality and cannot be managed in visual editors. just manualy in Admin > Appearance > Editor > template-frontpage1.php or via FTP

q: How to change left sidebar menu?
a:

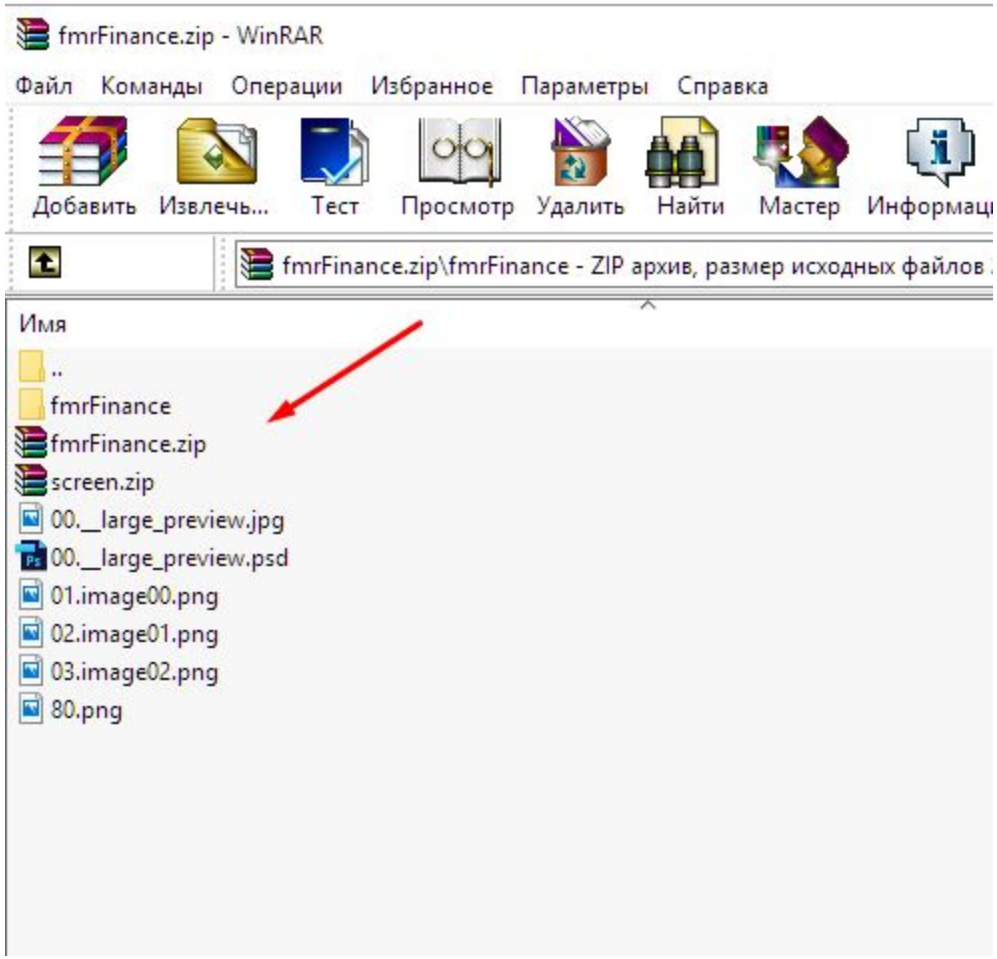


q: How to create small font files with line icons?
a: https://docs.google.com/document/d/10fFQD2wR2XGIIfXk7VgoWoGeUdH-NPFvGPv1tzDi0Lc/edit

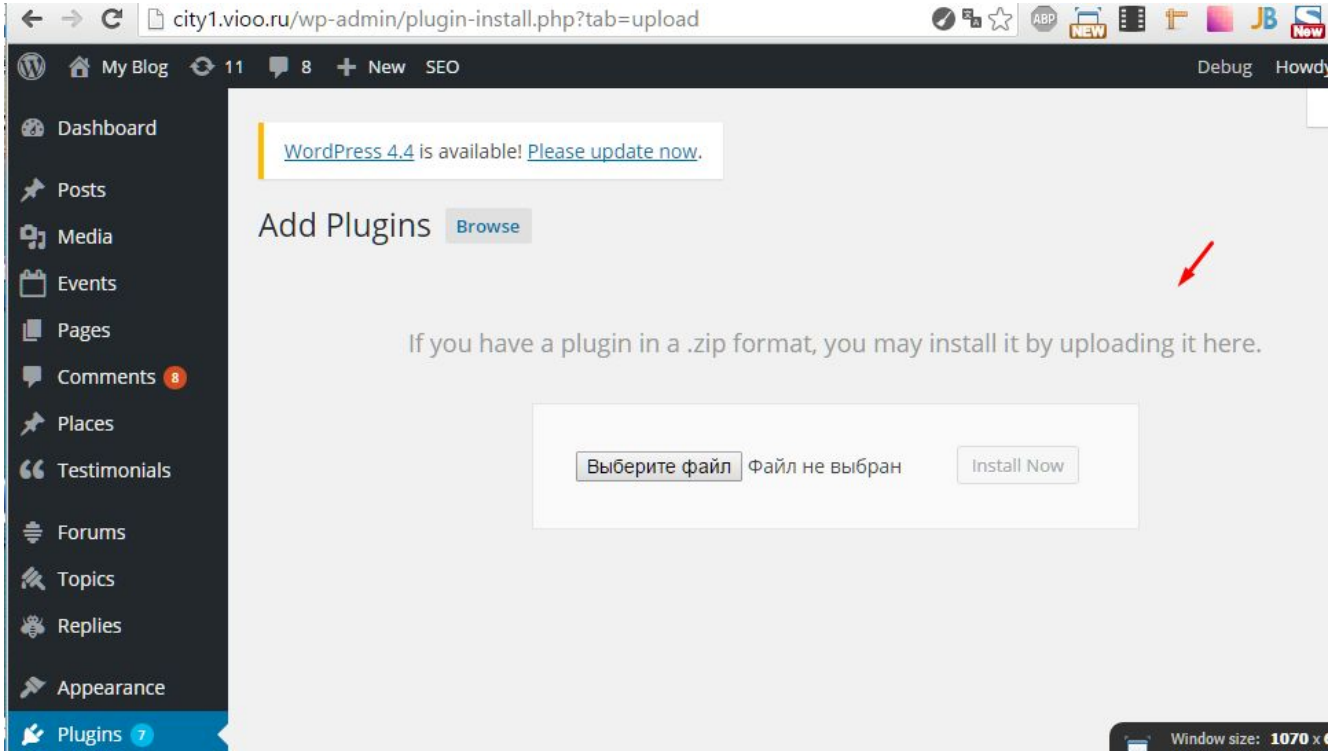
Q: The package could not be installed. No valid plugins were found?

A: Error can occur if the archive with the plugin contains another zip arihv,

1) extract the plug from the archive and install as a regular plug



2)



QA: What tags / shortcodes i can use in description?

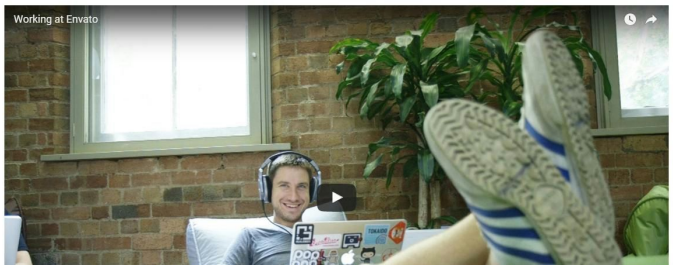
A: You can use tags html <a> <b>, and the all shortcodes
to insert a video, you can use two methods

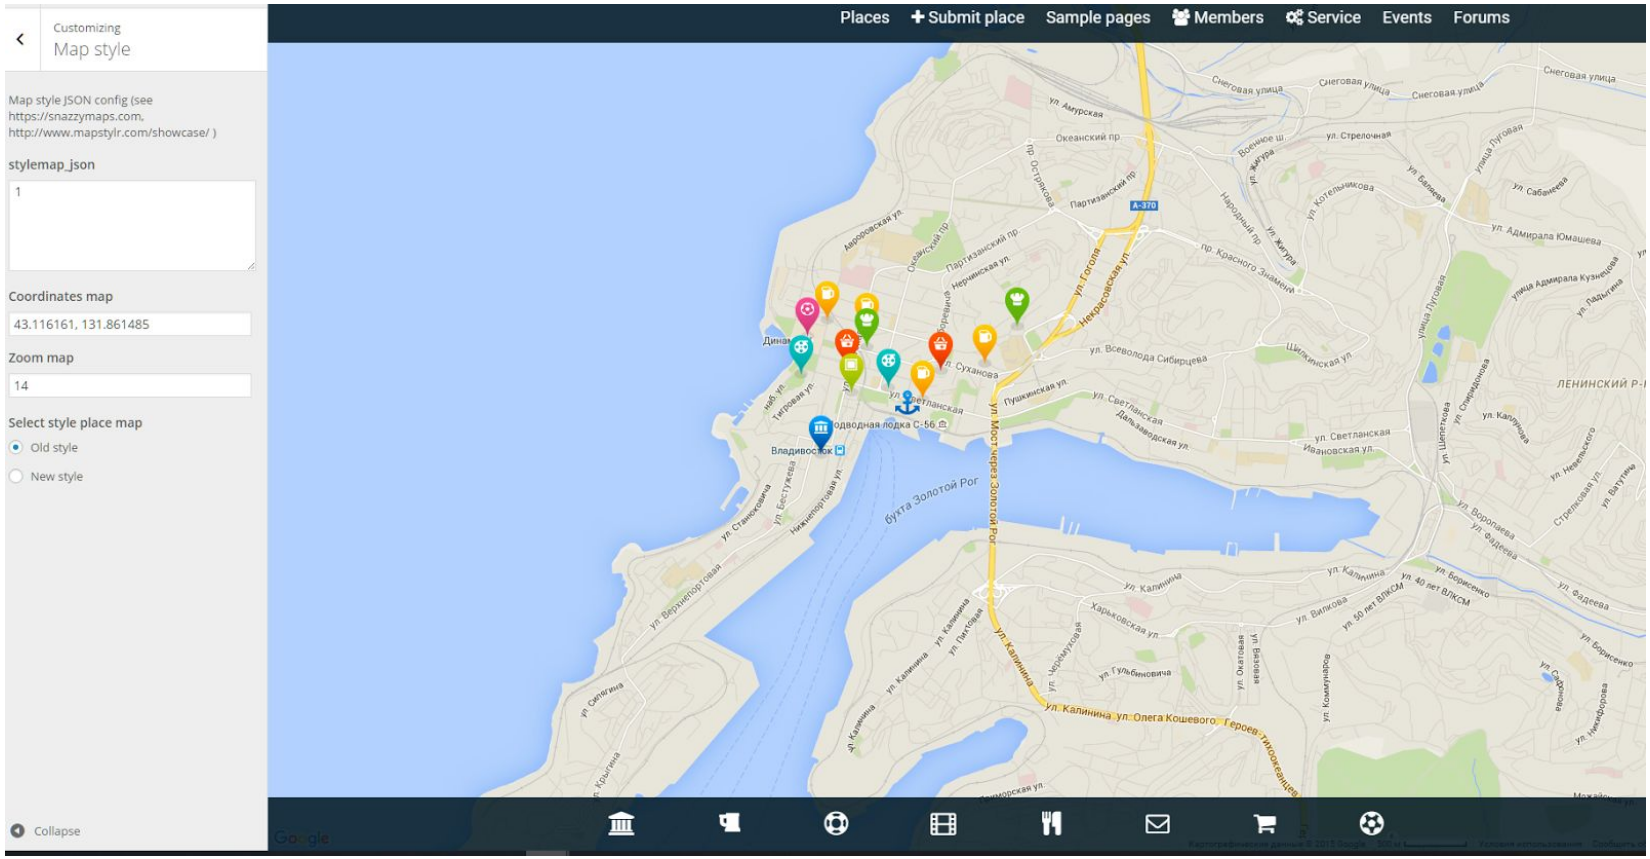
1) [video src="https://www.youtube.com/watch?v=nrJtHemSPW4"]
2) https://www.youtube.com/watch?v=nrJtHemSPW4

St Pertr steet., 6, Vladivostok, Far east

"Mumiy Troll Music Bar» – a club and restaurant, where special attention deserves a section of Far Eastern cuisine

This is a hyperlink



QA: How to return back the old look of the map in places?


A: Go to Customizing -> Map style and select –> Old style
